What is The Diana Initiative?

The Diana Initiative is a nonprofit organization which strives to create a more inclusive information security industry. We do this by providing inclusive and welcoming environments enabling under-represented groups (gender non-conforming, women, LGBTQ, BIPoC and others) to enter, learn, grow, and network within the information security industry.

The conference features technical presentations, professional development, personal development, networking opportunities, and more.

Our presenters are leaders in their respective fields representing industry, academia, and government.

We create opportunities through education, hands-on activities, and connecting attendees with potential employers who support diversity and inclusion.

We foster relationships and peer mentoring groups, ensuring attendees develop a supportive network they can rely on throughout their career.

The Diana Initiative is a nonprofit corporation exempt from tax under 501(c)(3). EIN : 82-2173128

**The Diana Initiative, Inc.
8465 W Sahara Avenue, Suite III-585
Las Vegas, Nevada 89117**

Why Sponsor with Us?

Corporate Responsibility

Potential customers, employees, and investors often consider an organization's philosophy on corporate responsibility when making decisions. By sponsoring The Diana Initiative, sponsors confirm their alignment with our core mission of increasing diversity, equity, and inclusion in the Information Security profession.

Brand Recognition

We proudly promote all Partner's logos on our website and in our event. Partners will be recognized and thanked on social media and at opening ceremonies. Other promotional opportunities based on Partner Level.

Tickets

All Partner Levels include at least one conference pass. By interacting with attendees as peers and community members, Partners gain valuable name recognition, unique networking opportunities and insight to potential hires.

Sponsor Table

Instead of an expo room, we embed you directly into the hallway outside of our talks and villages to maximize visibility and interaction with attendees.

Recruiting

Engage with security professionals, 28% of which were looking for new opportunities in 2023!

Please contact us at
sponsors@dianainitiative.org

Reach Diverse Talent

New: Talking slots

Sponsor talking slots are new this year and limited to our Platinum sponsor only.

Please contact us at
sponsors@dianainitiative.org

Attendee Expectations

Our privacy conscious attendees expect a certain level of anonymity.

Therefore, we do not provide any specific data we might have to sponsors or outside parties.

Show your support for diversity in InfoSec

Help break down the barriers faced by women, gender diverse minorities, racial minorities, cultural minorities, and other underrepresented or historically excluded groups.

Effective Sponsorship

Diana Initiative is not intended to be a vendor show. We ask that our sponsors be ready to contribute to the atmosphere of the event. Sponsors who find ways to actively engage with attendees via contests, games, crazy giveaways, or just super cool swag see better returns on their investment.

Get Involved

Be involved in the event that is regarded as the most welcoming part of the week of hacker conferences.

Sponsorship Quick Comparison

* Items have a print due date, and contracts must be signed before **July 1, 2024** to include the benefit.

History of The Diana Initiative

It was the summer of 2015. Hackers from around the world had gathered in Las Vegas for DEF CON 23. In the cafeteria tucked away in the basement of Bally's and Paris, 9 women found themselves chatting and laughing about their experiences in the field of Information Security. They were all passionate about their challenging roles in the male-dominated field and began exchanging strategies for success in their challenging environments. It was then and

there that they decided to create an event to foster that same feeling for those under represented in information security.

The first event was in 2016 in a small suite at Bally's, bringing attendees together in a collaborative, comfortable setting. From there the event continued to grow in attendance and scope.

Due to the global pandemic, the event had to

pivot into a virtual format in 2020 and 2021.

In 2022 the event was able to occur both online and in person at the Westin in Las Vegas for its first hybrid event!

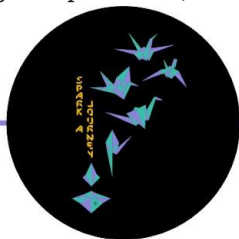

Last year's event, 2023 was in-person and for the first time has multiple classroom-style workshops for attendees, such as Reverse Engineering and exploiting Active Directory!

2019: Believe & Achieve Together

2020: Breaking Boundaries Byte by Byte

2021: Spark a Journey

2022: Take the Initiative

2023: Lead the Change
